

# Calls from People I Don't Know

A cellphone is a great way to stay in touch!

I like to call my family and friends.

Sometimes I get a call from a number I don't know. When this happens, it may be a scam.

A scam means that someone is not telling the truth. The person may be trying to get information from me. If I get a call from someone I don't know, I should not answer the call.

If it is someone I know, they will leave me a message. I can listen to the voicemail.

If I listen to the message and it is someone I know, I can call them back.

## Calls from People I Don't Know, Cont.

If the message is from someone I don't know, I can delete the message. If I do answer a call from a stranger, I will not give my personal information. This includes my name, birthday, address, social security number and bank information.

This person is a stranger.  
I can block this person's number.  
They won't be able to call me again.

I will not answer calls from numbers I don't know. I will not give personal information to anyone.

This will keep me safe.

My parents will be happy when I am safe.
