

# I Miss My Mom

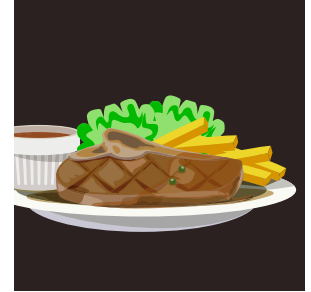

My mom was very sick.  
Her body was not working right.  
She was in the hospital to get medicine.  
The doctors tried to fix her.  
But the doctors could not fix her.

My mom died.  
She is not alive anymore.  
This means that I will not see her  
anymore.

I miss my mom so much.  
I am very sad.

When I miss my mom, I can:

- Look at pictures of her
- Listen to music that she liked
- Go to places that she enjoyed
- Do things we used to do together
- Make a meal, or ask for a meal, that she used to prepare for me
- Smell her old perfume or hold a piece of her clothing close to me
- Talk to my family and my friends about her

I will always love my mom.  
My mom always loves me.
