

My parents are helping with schoolwork

We are not going to school to keep everyone healthy.

Even though we are not going to a school building, I get to do schoolwork on the computer.

Since I'm not going to school and seeing my teacher, my parents will sometimes be like my teacher and help me with my schoolwork.

If I need help with my schoolwork, I can ask my mom and dad. They can show me how to finish my work the right way.

My mom and dad will need to check over my work. They may be checking it over to see if it has been done. Sometimes they may need to help me fix my work.

I will finish the work my teacher gives me each day with help from my parents!
