I enjoy having friends!

And remembering things about my friends!

It is important to be a good friend to others. This includes: Using nice words.

I can ask my friends questions about the things they like.

Sharing and taking turns.

I can ask my friends about things they don’t like.
I can ask them about their family or their pets.

When my friends tell me about themselves, I will try to remember what they say! It makes my friends feel special when I remember what they have told me.

I can ask when their birthday is.

I might have things in common with my friends. This means we both like the same things.

My friends should ask me questions too!

Maybe we both love pizza!
Maybe we both love the same video games!

We might also like different things too! That is okay.

Or I can wish them a happy birthday!

It makes my friends feel special when I remember what they tell me! It makes me feel happy to make my friends feel special.

When I remember things about my friends, I can ask them if they want to play their favorite game.
