

# Working with a Partner

I work hard in school.

Sometimes I work by myself.  
Sometimes I work with my whole class.

Sometimes I work  
with a partner.

My teacher may tell me  
who I need to work with.

Sometimes I can pick a partner.

If I want to work with someone,  
I can say "Do you want to be my partner?"

If my friend says no,  
I will say "okay."

## Working with a Partner (Continued)

If my partner says yes,  
I will sit at their table with them.

I will talk quietly with my partner.

My partner may have the same ideas as me.

My partner may have  
different ideas than me.

It is okay if my partner  
has different ideas.

If I get upset when  
working with my partner,  
I can take a break.

I do not need to yell  
or cry or \_\_\_\_\_.

I can take deep breaths  
to calm down.
