

Schoolwork at home

To keep everyone healthy, we are not going to our school right now.

Even though we are not going to a school building, I get to do schoolwork on the computer.

Every day, I will log into the computer and do the work my teacher has assigned.

Some days, I may watch my teacher on the computer. My teacher will show me how to do my work.

My teacher will give me work to do that I need complete, just like at school! I will do my work on the computer. I may have reading or math work to do each day.

If I need a break when I am doing my schoolwork, I can ask my parents. I will finish the work my teacher gives me each day.

If I need help, I can ask my parents. Just like my teacher would at school, they can help me with my work.
