

Snow Day

In the wintertime, it might be snowy or icy outside.

If there is snow or ice, my school might be closed.

When it is snowy or icy, the school closes because it might not be safe for cars and buses to drive students to school.

People who work at the school decide whether the school will be closed.

The school might be closed for a few hours, for one day, or maybe even several days.

If school is closed, I will not be able to go to school that day.

I have to follow the rules at home. But if I cannot go to school, I can spend time doing things at home that I enjoy like reading, playing games, playing in the snow, or watching TV and movies.

Snow days can be fun!
