

Autism Society
of NORTH CAROLINA

We are all different and that is great!

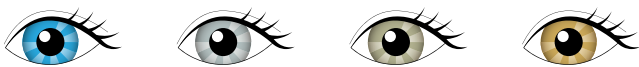

People are different in many ways.

People are different shapes, sizes and colors.
Some people are tall, some are short.

Some people have curly hair, some
people have straight hair, some
people have no hair.

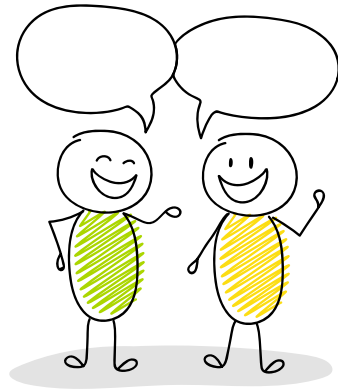

Some people have green eyes, or
brown eyes, or blue eyes.

Our skin has many shades.

Not everyone looks like me.
I don't look the same as anyone else.

I might sound different to some people, and
some people might sound different to me.

We might be different from each other,
and that is great!
